# LEARN MORE

“The thing I most appreciate about Honors is the dedication everyone within Honors has to one another. From the professors, to the administrators and so on, they all show me just how much I mean to them and that my success and well-being is important to them. I love being able to know that if anyone has my back it is someone in Honors. They create a family dynamic that is just what one would need especially starting in college and I appreciate having the opportunity to experience this now and for years to come.

**LaNasia Mason '26**

“An element of Honors teaching is student engagement. In Honors classes, students have an opportunity to be active participants.
